

### WHAT HAPPENS, IF THE WASTE IS NOT CORRECTLY SEPARATED?

If the waste is incorrectly separated, the bins will not be emptied and the content has to be disposed as residual waste (extra disposal). Bei falscher Mülltrennung bleiben die Müllbehälter stehen, und müssen als Restmüll (Sonderentleerung) entsorgt werden.)

Extra disposals are expensive and will add to service charges. (Die Sonderentleerungen sind teuer, und werden dann mit den Nebenkosten abgerechnet.)

### WHERE TO PUT THE WASTE?

Wohin mit dem Abfall?  
**Englisch**

At the collection date, the items mentioned above are to be placed by the roadside. Wooden items are to be placed separately.

- tables and chairs (Tische & Stühle)
- couches (Sofas)
- cabinets (Schränke)
- bed frames (no metal) & mattresses (Bettgestelle (nicht aus Metall) & Matratzen)
- scratching posts (Katzenkratzbäume)
- rugs (Teppiche)
- suitcases (Koffer)
- bulky play equipment (sperrige Spielgeräte)

### WHAT IS BULKY WASTE?

**RECHARGEABLES (Akkus)**  
Due to fire hazard, rechargeables are taken to recycling centers.

**BATTERIES (Batterien)**  
Old batteries are taken to shops.

**ELECTRONIC DEVICES (Elektronikgeräte)**  
Old, small and defective devices are taken to an electronic waste container or to a recycling center.

**CLOTHING (Kleidung)**  
Old clothes are to be taken to a clothing donation container.

**GLASS (Glas)**  
A white glass container is used for light, transparent bottles and jars.  
A coloured glass container is used for coloured bottles and jars.
